

Invitation OTC I Closed Fracture Treatment and Casting Technique Course

12 October 2024 @ UZA Antwerp

Dear Trainee,

We are pleased to invite you to the upcoming OTC I Closed Fracture Treatment and Casting Technique course, which will be held on October 12, 2024, at UZA Antwerp. This starter course is designed to enhance your skills in the acute management of closed fractures.

Course Highlights

- Focus on acute and closed fracture treatment
- Practical tips and tricks for diagnosis and closed reduction maneuvers
- Extensive theoretical and hands-on practical sessions on plastering techniques

This course is ideal for trainees involved in the initial management of trauma. Don't miss this opportunity to gain valuable insights and improve your practical skills in fracture management.
